## CURASEPT WHITENING TOOTHPASTE

### CONTENTS APPLICABLE TO GOLD & BLACK TOOTHPASTE:

#### HYDROXYAPATITE

The substituted hydroxyapatite, conjugated with chitosan in combination with the concentration of fluoride, carries out a remineralising action that contributes to reinforcing the enamel.

#### XYLITOL

Anti-bacterial

#### CARBAMIDE PEROXIDE

Gently whitens teeth

#### OLIVE OIL

Rich in oleic acid, which may be useful in the prophylaxis of dental caries and periodontitis to promote oral health.

#### ABRASIVITY INDEX

Most whitening toothpastes have an Abrasivity index higher than 120, Curasept whitening toothpaste has an Abrasivity index of **49**.

**FREE TOOTHBRUSH  
ALWAYS INCLUDED**

## CURASEPT GOLD LUX

WHITENING TOOTHPASTE  
CONTAINS COLLOIDAL  
GOLD AND SILVER

Anti-inflammatory properties

## CURASEPT BLACK LUX

WHITENING TOOTHPASTE

CONTAINS BIOACTIVATED CARBON

The structure of the microparticles absorbs pigmenting substances, restoring your teeth to its natural shade.

Leaves the mouth feeling fresh & clean,  
without destroying the oral mucosa.
